“Why Should
Women Rule
the World?”

Why Women Should Rule the World

In the Words of our Clients

- Women...*
- Collaborate to create a great solution
 - Understand what it means to validate, not dismiss
 - Have keen intuition that enables them to see needs and problem-solve successfully
 - Are community connectors
 - Have a broader understanding of what is most important in life – practicality and compassion
 - Are focused on resolving social issues, taking care of the less fortunate and reallocating resources accordingly
 - Are resourceful, full of boundless hope for the future and creative
 - Focus on compassion, nurturing and peace
 - Seek fairness and balance
 - Have the most influence over the present and future
 - Know the devil is in the details and DO sweat the “small stuff”
 - Know that leading can be done quietly each day without a spotlight, title or pay to motivate
 - As my grandmother so often said, “the hand that rocks the cradle is the hand that rules the world”
 - Who ever heard of a female dictator? There would be much less armed conflicts as women rulers would lead much more successful negotiations
 - Without women, there would be no world!
Women are the bearers of LIFE
 - Already RULE this earth! Problem is...most folks just do not realize it...yet!
